

## HAWKER SCHOOL

### Student Book Packs 2023

Hawker School provides all children from preschool to year 6 with the necessary consumables and stationery supplies for the school year. K-6 children receive exercise books, folders, pencils, rulers, glue sticks, scissors etc at the start of the school year and preschool children are provided with writing materials, all craft and program supplies and a sun smart hat.

Having the school supply these stationery materials creates consistency across the school and gives us access to specialist materials which sometimes are not available or are difficult for parents to find at local stores. Additionally, by purchasing in bulk, the school is able to obtain a more cost-effective price for materials used throughout the school year.

In 2023 the cost of the consumable and stationery pack is \$120 per child and may be made as one payment or by instalments using cash, cheque, Quickweb or direct deposit.
